

SHARON JOEL

Nairobi, Kenya 00100 | 0748856451 |
sharonmbeneka8944@gmail.com

I am a dedicated motivated computer science student aspiring to launch a career in software development. I have a strong passion for front-end development and a proficient understanding of React. I am adept at problem solving, coding and a quick learner with a good foundation in the relevant programming languages. I am seeking a challenging opportunity to apply and enhance my skills while contributing to a dynamic team as a team member or leader.

EDUCATION

BACHELOR OF SCIENCE IN MATHEMATICS AND COMPUTER SCIENCE

Expected Graduation Year: 2025

Relevant Coursework:

- Web Development & React Development – SheCodes Workshop (<https://www.shecodes.io/graduates/88964-sharon-joel/>)

SKILLS

Technical Skills:

- Languages: HTML, CSS, JavaScript (ES6+)
- Front-End Development: React
- Version Control: Git, GitHub
- Web Development Tools: Visual Studio Code, Chrome Dev Tools, RESTful APIs
- Responsive Design and CSS Frameworks: Bootstrap
- UI/UX Design: Figma, Invision Freehand

PROJECTS

1. Portfolio Website
 - Developed a personal portfolio website using Vanilla.js and deployed it using Netlify.
 - I implemented responsive web design on various viewports and show cased various development projects I had worked on.
 2. Weather App
 - Built a weather app both in Vanilla.js and React.js that shows real-time weather information for a user's location.
 3. Other personal projects for exploratory and experimental purposes
 - Recipe App, Favourite Band Landing page
 4. Links to my projects
 - Weather Apps
